

### Students Feedback

Feedback is an essential part of learning effectively and enhancing student's learning experiences. Student feedback has become a widely used method to evaluate and improve teaching effectiveness. Feedback from your students allows us to know what we are doing that facilitates learning but, also what adjustments that need to be made. Even minor changes in the classroom can make a huge difference!

Students have a unique perspective of how their teachers educate. Obtaining student feedback allows the students to actively become more engaged and involved in the classroom. Student feedback can be collected cheaply and quickly, which gives teachers the opportunity to make any adjustments to their teaching as quickly as possible.

The feedback obtained from the students in the year 2020-21 is analyzed with the help of various tools and techniques and arranged in the form of table 1. The responses of the students were taken on a four-point scale i.e. 1 to 5. The rating provided to various parameters is based on their mean scores and categorizes as follows: Always ( $4 \leq \text{M.S.} \leq 5$ ), Often ( $3 \leq \text{M.S.} \leq 4$ ), Sometimes ( $2 \leq \text{M.S.} \leq 3$ ), Rarely ( $1 \leq \text{M.S.} \leq 2$ ) and Never ( $\text{M.S.} < 1$ ).

Table 1 given below shows that all the parameters i.e. 12 upon which the students' feedback is obtained are rated as 'Always' which clearly signifies that students are satisfied with all aspects related to college and teachers.
