

Observance of International Day of Forests

College observed International Day of Forests (as declared by UNO) on 21st March, 2021. The objective was to raise awareness about the importance of forests in our lives. Principal of the College, Dr (Mrs.) Suresh Boora encouraged students to plant more and more trees in their houses, in farms and in their vicinities to save our planet. She further added that forests have a useful role to play for living creatures, provide food and shelter to them and also address the problems of climate change and biodiversity. Staff members and twenty five students of Distance Education programme were present to observe the event. Students also gave the message of saving forests by means of posters and written slogans in their hands. Eco Club of the College organised this event.
