Road safety club and traffic interpretation centre celebrated the third day of "Road safety week" by organising an interactive session by DR. NITIN (MBBS, Covid nodal officer of civil hospital, Kharkhoda) on "First Aid for road side accidents". As we all know first aid has always been a vital part of an effective emergency response and disaster preparedness strategy for the general public. The most vital and practical of these skills - first aid have been learnt and used by members of the public effectively in times of emergency — said by DR. NITIN. Dr. Suresh Bora (Principal) appealed the students that, they should know how to handle a road accident victim. Knowing the basics will certainly help in buying time to save the victim's life. She focussed to save emergency helpline contact numbers at priority. DR. Nitin touched various issues on first aid and made the whole session interactive. He very effectively discussed first aid tips for Road Accident Victims.

On the occasion of Road safety week Blood group and HB test camp was organised by Road safety club and traffic interpretation centre. Nearly 65 students participated in one day camp with full zeal. We all should be aware of our blood groups and HB levels. Knowing our blood group helps us to select appropriate blood for transfusion either during any emergencies or accidents. The purpose of organising hemoglobin test was to motivate those girls who have iron deficiency. Our worthy principal DR Sumita Bora urged the students to follow healthy eating habits, as they are the one who has the responsibility of nurturing their future generations. Private lab technicians were invited for the event.
